

At-A-Glance Timeline by Objective

Purpose: This template can be used to create a quick reference for the timeline developed using the *Math Task Force Process by Objectives* tool.

Objective	Objective Description	Timeline
1	Surface concerns and hopes for improvement of undergraduate mathematics; establish and communicate a charge for the task force.	
	MPC Deliverable: Submit a formal charge to the Dana Center.	
2	Define the current problems that math pathways will address; identify what is known and what additional information is needed to understand the problems and their underlying drivers.	
	MPC Deliverable: Submit to the Dana Center a consultant-reviewed, 2-page brief for an external audience, summarizing the problems and the evidence for those problems.	
3	Identify the challenges to implementing math pathways.	
4	Brainstorm solutions to address the identified challenges.	
5	Prioritize solutions.	
	MPC Deliverable: Submit solutions to the consultant and the Dana Center for review.	
6	Draft recommendations.	
	MPC Deliverable: Submit the proposed recommendations to the consultant for review.	
7	Formally vet recommendations.	
8	Write and publish the recommendations.	
	MPC Deliverable: Submit the full document of task force recommendations to the consultant and Dana Center for review prior to publication.	
9	Disseminate and champion the recommendations.
